Fintelligence

Compliance: Federal Act on Data Protection (FADP)

Training program SAM

Title / Topic	Federal Act on Data Protection (FADP)
Target audience	Asset managers
Learning content	The Data Protection Act aims to protect the privacy and fundamental rights of natural persons. The introductory module describes the aim and purpose of the Data Protection Act, the most important principles of data processing and important measures to ensure data security. In Module 2, essential rights and obligations are listed in accordance with the Data Protection Act. Finally, the third module deals with the data protection legislation in Europe from the perspective of a Swiss company and with the enforcement of the data protection law.
Learning location / Testing location	Fintelligence Online Lernplattform: https://fintelligence.fintelligence-net.com/
